SPECIFICATION SHEET

MODEL NO.	DH-C4+2
-----------	---------

GENERAL SPECIFICATION

Battery	6pcs x US 8VGC XC (170Ah@20hr rate)		The following Picture just for your reference 
Motor	4KW motor		
Controller	Curtis		
Charger	Deltar-Q brand, input 110V-240V, 60Hz, output 48V, 18A	 50Hz-	
Accelerator	Ajustable Inductive Accelerator		
Suspension	Leaf Spring With Hydraulic Shock Absorbers both front & rear		Overall dimensions 3330*1245*2025mm
Steering	Self Compensating" Rack & Pinion" Steering		Max. loading weight 800kg
Brakes	Rear wheel Mechanical Drum Brake		G.W. 640kg
Passenger capacity	6		Chassis Steel
Load range	70km		Wheel base 2480mm
Max. speed	32km/h		Drive Train Rear direct drive
Minimum turning radius	≤5m		Ground clearance 150mm
Max. climbing ability	20%		Tires 22*11-10, 4Ply

STANDARD CONFIGURATION

Body	Fiber glass	
Roof	Steel frame + Fiber glass	
Windshield	one - piece glass	
Dashboard	In black plastic finish , forward/reverse switch, battery capacity indicator, ignition key	
Beverage holders	4 cups drink holders	
Wheels	AT22*10-10, 4PTL	
Windshield	Windshield, hinged	
Reversing alarm	yes	
Score card holder	on steering wheel	
Body	Fiber glass body	
Roof	Fiber glass	
Steering system	Self compensating "rack & pinion" steering	
Brake system	Self compensating "rack & pinion" steering	
Accelerator	Adjustable Inductive Accelerator Continuously Variable Speed System	
Suspension system	Leaf spring with hydraulic shock absorber	
Driving mode	Rear axle two stage deceleration, motor direct driving	
Rear axle	Integrated, Gear ratio 10.25:1
